Chhay Sothea is a 16 years old student in 7th grade at The ASIJ School which is located in Chup Krom village, Svay Leu commune, Svay Leu district, and Siem Reap province.

Sothea has gotten only two siblings including her. She is the first born in the family. Her parents are farmers. They have owned half hectare of farmland for growing rice. Sothea narrated according to the current living condition of her family they have transplanted rice and they could get for 1 ton and half of rice's output per year. After the rice's yield collection her parents had sold out for half ton of rice and got \$94.

Sothea continued that, although her parents could receive for \$94 from selling rice but that benefit was insufficient for their daily needs. Therefore, besides the rice's transplantation her father has had to seek another job to work as a motor-taxi driver and he benefited for \$5 per day in order to patch up on food but it was not regular income.

Regarding Sothea, she hasn't attended the school regularly because of her parents sometimes asked her to help take care of the cows at the rice field.
