

Girl's Name:

Sponsor's Name:

Chorn Chansereyroth is a 16 years old student in 10th grade at The ASIJ School which is located in Chup Krom village, Svay Leu commune, Svay Leu district, and Siem Reap province.

Chansereyroth has gotten six members in a poor family, her mother, two older sisters, two older brothers and she is the youngest born in the family. Her father passed away by disease for 4 years ago. They have one hectare of farmland for growing rice. From year by year they have grown rice for one hectare and half and they have gathered from 2 tons to 3 tons.

Chansereyroth described that for the amount of that rice's output; they have sold out for one ton with the cost of \$200 for compensation of fertilizers and others. Although, they earned little income from selling rice but that income couldn't settle the family well, therefore, they have had to find and pick the cashew nut and gotten little benefit in order to pay for the family's needs. However, the amount of that revenue still wasn't adequate to buy food, clothes and school supplies for her schooling, said by Chansereyroth.
