En Mao is a 20 years old student in 10th grade at The ASIJ School which is located in Chup Krom village, Svay Leu commune, Svay Leu district, and Siem Reap province.

Mao has gotten ten members in a poor family, her parents, three older sisters, two older brothers, one younger sister and one younger brother and herself. She is the sixth born in the family and her parents have one hectare and half of farmland for growing rice. From year by year they have grown rice for one hectare and half and they have gathered from 30 sacks to 35 sacks.

Mao described that for the amount of that rice's output; they have sold out for 25 sacks and got \$400 from traders. Although, they could earn some incomes from selling rice but those incomes couldn't settle the family well, therefore, they have had to grow some vegetables and raised some chickens in order to serve for family's needs, said by Mao. However, the amount of that revenue still wasn't adequate to buy food, clothes and school supplies for Mao's schooling.
