Khat Sothy is a 14 years old student in 7<sup>th</sup> grade at The ASIJ School which is located in Chup Krom village, Svay Leu commune, Svay Leu district, and Siem Reap province.

Sothy was born in a big, poor family with nine members in the family as such as her parents, her three old sisters, her two old brothers and her younger brother. She is the sixth born in the family. Her parents are farmers. Her parents have owned one hectare and half of farmland for growing rice. They have grown rice every year and they benefited 2 tons per year.

Sothy described that for the amount of that rice's output; they have sold it out and got \$375. Although, they could earn some incomes from selling rice but those incomes couldn't settle the family well, therefore, they have had to grow some vegetables and raised some chickens in order to serve for family's needs, said by Sothy. However, the amount of that revenue still wasn't adequate to buy food, clothes and school supplies for her schooling.
