

Girl's Name: Bann Vannak

Bann Vannak is 13 years old and is a student in the 7th grade at The Kozak Ohana School in Mohor Village, Chey Commune, Kampong Svay District, Kampong Thom Province.

Vannak has five siblings, three sisters, two brothers and she is the third child in the family. Her parents own one hectare of land in which they can grow up to 700kg of rice per year. This is enough to support the family for the year if they eat small portions, but it is not enough to use to sell. As there is not enough rice to make a profit, Vannak's parents and eldest brother have to have additional jobs. Vannak's mother and father both work in another district cutting potatoes, earning \$4-5/day, and her eldest brother stopped school to work in grade five, and he now makes \$40/month.
