

Girl's Name: Khorn Visal

Khorn Visal is a 11-year-old student in 6th grade at the Sunnyside in Prasat village, Tong Rong commune, Prey Chhor district, Kompong Cham province.

She is the second child in the family. She has four siblings. Her parents are farmers. And they do farming on 50A of land cultivating. This length of land can't feed their family enough, so they need to work for other villagers or find other jobs as seasonal workers when the cultivating season is ended. They can earn about \$6 per day. This hard condition in family makes her skip the class because she can't just go to school and let her parents do hard work on that way. Sometimes, she is absent from school to work at the rice field and helping her parents doing house work and look after her youngest siblings.
