The family owns one hectare of farm land; in which they can earn up to \$300 a year in rice production. As this is not enough to support the family's needs, Phary's father commonly has to work for others. He has to dig the land put to the car. One day they can earn \$4 or \$5. This means, that even with this additional income, the parents do not have enough money to support the family and their children's everyday needs.
