

Girl's Name:

Sponsor's Name:

Thin Chanthou is a 12 years old student in 6th grade at **The Shintoshin Rotary and Speros (Hawaii) School**, which is located in Pal Hal village, Rik Reay commune, Rovieng district, and Preah Vihear province.

Chanthou has gotten eight members including her. She is a sixth born in the family. Her parents are farmers. They have owned one hectare of farmland for producing rice. According to the current living condition of her family they have produced rice and they have collected for 25 sacks of rice's output per year. For one sack of rice is equal 50kgs.

Anyhow, Chanthou said the rice's yield hasn't been sold out because her parents have kept it for their daily consumption. Besides producing rice her parents have grown some vegetables and sweet potatoes and raised some chickens in order to solve a problem of the family's needs, said by Chanthou.

However, the income earned from growing crops wasn't affordable for the family's needs so sometimes her parents forced her siblings and her to work at the cashew farms of the rich people in order to get little revenue to help solve the family, said by her parents.

Regarding the above explanation, sometimes Chanthou didn't attend the school regularly because of her parents asked her to help find revenue from the cashew farms' works.
