

Girl's Name:

Sponsor's Name:

Ek Samnang is a 11 years old student in 5<sup>th</sup> grade at **The Shintoshin Rotary and Speros (Hawaii) School**, which is located in Pal Hal village, Rik Reay commune, Rovieng district, and Preah Vihear province.

Samnang has gotten three siblings including her. She is a first born in the family. Her parents are farmers. They have their own farmland but it's very small about 35 meters of width and 50 meters of length. Samnang narrated according to the current living condition of her family they have produced rice and they could get over 1 ton of rice's output per year. After the rice's yield collection her parents had sold out for 500kg of rice and got \$93.75 of benefit.

Samnang complained, although her parents could receive for \$93.75 from selling rice but that benefit was insufficient to hold on for their daily needs. Therefore, her father has had to seek another job to work as the construction worker and he benefited for \$5 per day in order to patch up on food but it was not regularly income.

Unfortunately, Samnang hasn't attended the school regularly because sometimes, her parents asked her to help take care of the cows at the rice field and do the chore at home as well.
