

Girl's Name:

Sponsor's Name:

Vann Sophanna is a 11 years old student in 5<sup>th</sup> grade at **The Shintoshin Rotary and Speros (Hawaii) School**, which is located in Pal Hal village, Rik Reay commune, Rovieng district, and Preah Vihear province.

Sophanna has gotten two siblings including her. She is a second born in the family. Her parents are farmers. They have two hectares of their own farmland for producing rice yearly. They could collect for 30 sacks of rice's output per year. One sack of rice is equal 50kgs. After the rice's yield collection her parents had sold out for 15 sacks of rice and got \$140.63 of benefit.

Sophanna described that, although her parents could receive for \$140.63 from selling rice but that benefit was insufficient to hold on for their daily needs. Therefore, her father has had to seek little income from the cashew nuts' collection and he benefited for \$5 per day in order to patch up on food but it was not regularly income.

Unfortunately, Sophanna hasn't attended the school regularly because sometimes, her parents asked her to help take care of the cows at the rice field as well.
