Vin Piseth is an 11 years old student in 5<sup>th</sup> grade at **The Shintoshin Rotary and Speros (Hawaii) School**, which is located in Pal Hal village, Rik Reay commune, Rovieng district, and Preah Vihear province.

Piseth has gotten four members in the family. She is a second born in the family. Her parents are farmers. They have owned one hectare of farmland. Although, they have had their own farmland but they were impossible to produce more rice because their farmland wasn't good preparation because of more hills.

Regarding the planting rice, they could collect only 15 sacks (50kgs per sack) of output per year but they haven't sold it out because they have served for their daily support only. Therefore, besides growing rice, Piseth's parents have grown some yam and cassava at the farm and harvested them for selling. And the revenue which they have received from selling those crops was between \$160 and \$200 a year. However, the amount of that revenue was inadequate to buy food, clothes and school supplies for Piseth's schooling.

Whereas Piseth said that she hasn't attended the school regularly because her parents needed her to help work at the farm and do house work sometimes.
