

Profile of Phan Sreipech

Sreipech is 12 years old and she is in grade 6 at the Wahrenbrock Family School #235 in Takeo province, Ko Antet district, Pech Sar commune, Chong Angkar village.

There are four members in family. She has got one brother and one sister includable her. She is oldest child in family. Her father is farmer. He has 25A field farmland which has produced average is 400 kg of rice a year. However, this is only the ideal output because he needs to barter for fertilizer and other expenditures during the farming process. Her parents have not enough money to support food and school supplies for **Sreipech** during she is studying at state school. Therefore, **Sreipech** needs to help her mother housework after school and day off.

Sreipech wants to be a doctor when she grows up. She loves the position very much. Moreover, she should likes to assist patients in the rural villages. In her idea she thinks that rural villagers have not enough money to private hospital. And she glorifies domain of health and would likes the rural people to believe in state hospital that all the doctors really try their best to take care the patients.

Sreipech wants to earn money to support her family in the future when she is going to succeed in her aspiration.
