

Girl's name: Sangly Soknan

Sangly Soknan is 14 years old. She's in grade 7 of #448 CREDO school. She lives in Somrong Preykeav village, Metoek commune, Bakan district, Pursat province.

Soknan has only one elder brother. She is the second child of the family. She lives with her parents. Her family lives just depend on farming work and they can earn a little money from this work. So they are very difficult to earn money to support the family and their children going to school. Sometimes her father needs to work as a worker who carries heavy staff to earn more money to support the family. She gets only 1500 riels a day for school. After she leaves school, she always cooks, washing clothes, clean the house, water the plants and feed the cows. She goes to school by bicycle and sometimes she ride motorbike with her classmates.

In her free time, she always likes reading books, does her homework and helps her parents' housework.

In the future, she wants to be a doctor, because of her mother always sick so she would like to helps her and she also wants to help others people in her village.
