

Leab Cheanda

Cheanda is a 15 year old student in 8th grade at The ASIJ School # 467 donated by American School in Japan. It is located in Chub Krom Village, Svay Leu Commune, Svay Leu District, Siem Reap Province.

Cheanda is the first child in the family, with two younger sisters and two younger brothers. Her father passed away three years ago.

Her family has one hectare of farmland for growing rice. The rice can produce 25 sacks of rice per year and production quantity of one sack of rice is about 75 – 80 kilograms but it is still not enough for a year.

Her mother didn't let her come to study because she is a girl and had no money to support her to continue to study. Also, she needed her to help to earn money to support the family but Cheanda is never absent and now she stays with her aunt near the school without support from her mother because she has no money to support Cheanda.

Cheanda is a student who pays attention and tries to learn. She tries hard to study and she gets good grades. She wants to be a good teacher when she grows up because she loves teaching young children in her village and would love to earn money to support her mother.
